

```
1 import loadImage from './load-image'
2
3 let addImg = (src) => {
4   let imgElement =
5     document.createElement("img")
6   imgElement.src = src
7   document.body.appendChild(imgElement)
8 }
9
10 Promise.all([
11   loadImage('images/cat1.jpg'),
12   loadImage('images/cat2.jpg'),
13   loadImage('images/cat3.jpg'),
14   loadImage('images/cat4.jpg')
15 ]).then((images) => {
16   images.forEach(img => addImg(img.src))
17 }).catch((error) => {
18   // handle error later
19 })
```
